INTRODUCTION

Crews Engineering, Inc. is pleased to provide our Statement of Qualifications for your consideration.

Located in Valdosta, Lowndes County, Georgia since 1998, Crews Engineering, Inc. provides consulting structural and civil engineering services to Architects, Engineers, Industry, Government, Contractor and Developer clients for projects throughout the southeast including Georgia, Florida, North Carolina, South Carolina, Alabama, Mississippi and Louisiana.

Crews Engineering, Inc. maintains a disciplined approach to engineering projects utilizing the latest in computer technology in conjunction with traditional design methods to produce accurate and efficient designs. Quality control procedures used for every project include the use of industry standard design checklists and Peer review by outside consultants on larger projects. In addition to the traditional quality assurance procedures, Crews Engineering, Inc. utilizes the latest in building information modeling (BIM) to identifying and eliminating conflicts in the design phase. Safety, Efficiency and Constructability are primary considerations for every project at Crews Engineering, Inc.

Crews Engineering, Inc. addresses every project's concerns and schedule at weekly project management meetings. We commit to keeping the client informed of any circumstance that may affect the schedule of their project(s).

Crews Engineering, Inc. believes that for a project to be successful, coordination of all disciplines/designs must occur. Key personnel have several years of experience as project engineer and project manager for projects involving civil, structural, mechanical, electrical and plumbing engineering. This experience continually proves to be an asset toward the successful completion of projects.

PROFESSIONAL SERVICES

STRUCTURAL ENGINEERING

- New commercial, institutional, industrial, healthcare and government facilities
- Evaluation of existing structures
- Renovations to accommodate additions or changes to structures
- Renovations to accommodate new or relocated equipment
- Renovations to accommodate change in use or occupancy
- Shallow and deep foundations including auger cast piles & caissons
- Seismic & wind analysis and design
- Supports and foundations for heavy and / or vibrating equipment
- Supports for process equipment and piping
- Bridges, culverts and hydraulic structures
- Structural rehabilitation of mechanical or chemical damaged structures
- Chemical process tanks
- Concrete, steel and timber structures
- Retrofit metal roofs over existing buildings

CIVIL ENGINEERING

- Feasibility studies for commercial, residential and industrial land development
- Cursory wetland delineation
- Development of site grading plans
- Athletic fields (new and repair/upgrades to existing)
- Pavement design
- Storm drainage and retention systems
- Wastewater collection systems
- Regional stormwater management
- Channel and bank improvements for streams, creeks and canals
- Spill containment design
- Soil Erosion & Sediment Control Planning and Design

KEY PERSONNEL RESUMES

RANDALL S. CREWS, PE, SE

President

PROFESSIONAL EXPERIENCE

Mr. Crews' responsibilities entail design development, final design and construction administration. He is proficient in conventional and computer assisted methods for analysis and design and the application of major building codes with respect to wind and seismic forces and their effect on structures. In addition to Mr. Crews' technical abilities, he has a strong background in project management. Several projects across the Southeast requiring civil, structural, mechanical, electrical and plumbing engineering disciplines have been successfully completed under his management.

STRUCTURAL PROJECT EXPERIENCE

Mr. Crews' structural project experience includes over thirty years of responsible design for various projects including commercial buildings, schools, hospitals, medical laboratory facilities, governmental buildings, pedestrian bridges, water treatment facilities and industrial structures including buildings, bridge cranes, jib cranes, various equipment support structures and repairs to insufficient or damaged structural members. Mr. Crews has a strong background in multi-story reinforced concrete and structural steel buildings as well as various foundation systems including shallow and deep foundations. Additional capabilities include design of new wood, timber and light gage metal structures as well as analysis and assessment of existing structures. Mr. Crews has been the structural engineer of record for several risk category IV structures including fire stations, 911 call centers, jails and emergency operation facilities and for several successful historic preservation, re-habilitation and adaptive re-use projects across the State of Georgia.

CIVIL PROJECT EXPERIENCE

Mr. Crews' civil project experience includes design and preparation of site development plans for projects ranging in size from less than 5 acres to 300 acres. Civil projects include school sites, athletic complexes, food service/ restaurants, warehouses & warehouse / loading dock expansion projects.

EDUCATION

Master of Civil Engineering
Norwich University, 2007

Bachelor of Science, CET
Southern Polytechnic
State University, 1991

ACTIVE REGISTRATIONS

Professional Engineer

Blake Crews, EIT

Project Engineer

PROFESSIONAL EXPERIENCE

Blake's responsibilities entail design development, final design and construction administration. He has experience in conventional and computer assisted methods for analysis and design and the application of major building codes with respect to wind and seismic forces and their effect on structures. Blake is proficient with Microsoft Office and AutoCAD software for preparation of project documents. Additional capabilities include structural steel and concrete design and use of finite element software for analysis and design of structures.

STRUCTURAL PROJECT EXPERIENCE

Blake's structural project experience includes three years of intern engineering for projects involving field surveys, code research and steel, concrete and foundation design for industrial structures and small to medium commercial buildings.

CIVIL PROJECT EXPERIENCE

Blake's civil project experience includes field surveys and development of site design drawings for industrial and spill containment structures.

EDUCATION

Bachelor of Science, CE

MICHAEL J. BEARDEN

Project Designer

PROJECT EXPERIENCE

Mr. Bearden's responsibilities as a project designer includes over twenty years of experience. Responsibilities as a project designer include drawing standardization, preparation of design drawings, and building information modeling. Mr. Bearden is proficient with Microsoft Office, Adobe, AutoCAD, and Revit software. Mr. Bearden assists with scheduling of manpower to meet project schedule requirements. Mr. Bearden remains involved with his projects thru construction by assisting with responding to contractor requests for information, assisting with submittal / shop drawing reviews, and construction phase inspections.

STRUCTURAL PROJECT EXPERIENCE

Mr. Bearden's structural project experience includes K-12 school additions, technical college/ university building structures, commercial buildings and multi-family housing projects. Additional experience includes industrial structures, stair towers, equipment support structures and miscellaneous upgrade/ repair projects. Example projects include multi-story housing, warehouses, charter schools, indoor athletic facilities, gymnasiums and several miscellaneous structural projects.

CIVIL PROJECT EXPERIENCE

Mr. Bearden's civil project experience includes standardization of surveys, preparation of site design documents and execution of engineer mark-ups in the process of preparation of final site design documents.

EDUCATION

Assoc. of Applied Science
In Drafting Technology
Bainbridge College
2004

PROJECTS COMPLETED

EDUCATIONAL

Valdosta Board of Education

Valdosta, Georgia

- New Sallas Mahone Elementary School
- Renovations to Bazemore-Hyder Stadium
- New Lomax-Pinedale Elementary School
- New West Gordon Elementary School
- New W. G. Nunn Elementary School
- Addition to Sallas Mahone Elementary School
- New SL Mason Elementary School
- New Westside Elementary School
- Scintilla Charter Academy
- New Pine Grove Elementary School

Lowndes County Board of Education

Lowndes County, Georgia

- Additions & Renovations to Lowndes Middle School, Copeland Road
- Additions & Renovations to Clyattville Elementary School
- Additions to Hahira Elementary School
- Additions to Moulton Branch Elementary School
- New Westside Elementary School
- New Pine Grove Elementary School
- Clyattville Elementary School Re-Roof
- New Lowndes High School

Colquitt County Board of Education

Colquitt County, Georgia

- Additions & Renovations to Colquitt County Senior High School
- Additions & Renovations to Okapilco Elementary School
- Additions & Renovations to Doerun Elementary School
- Additions & Renovations to Stringfellow Elementary School
- Additions & Renovations to Hamilton Elementary School
- Additions & Renovations to Funston Elementary School
- Additions to R.B. Wright Elementary School
- A New Athletic Field House, Colquitt County High School
- Sunset Elementary School
- Additions to Colquitt County Elementary

Thomasville and Thomas County Board of Education, Thomasville, Georgia

- New Middle School
- New Hand-in-Hand Primary School
- Additions to Harper Elementary School
- Additions to Macintyre Park Middle School
- Additions to 9th Grade Academy
- Additions to Macintyre Park Middle School (2 story building).
- Thomas County Middle School Auditorium/Gymnasium
- New Brookwood Gym
- New Thomasville High School Gym
- Modifications/Replacement to Press Box at Stadium Thomasville High School
- Thomas County High School Stadium Renovation Ticket booth.
- New Cafeteria to Harper Elementary School
- New Multi-Purpose and Indoor Practice Facility

Valwood School

Valdosta, Georgia

- New School Campus including Classrooms and Gymnasium

St. John Catholic Church & School

Valdosta, Georgia

- New Kindergarten Classroom and Library Addition

Lanier County Elementary School

Lakeland, Georgia

- Multi-Purpose Room/Auditorium

Briarwood Academy

Warrenton, GA

- New Gym/Cafeteria and classroom

Sail Academy

- Columbia County, Georgia

Pataula Charter Academy

- Edison, Georgia

Baconton Community Charter School

- Baconton, Georgia

BOARD OF REGENTS UNIVERSITY SYSTEM OF GEORGIA

Valdosta State University, Valdosta, Georgia

- Historic Ashley Hall Renovation and Restoration
- Historic Reade Hall Structural Restoration
- Langdale Hall Veneer Repairs
- New Auditorium Classroom Addition
- Nevins Hall Renovations and stair Tower Addition and Elevator addition
- Softball Field House Addition
- Masonry wall Repairs at Plant Operations
- Pedestrian Bridge from Education Building to New Lecture Hall
- Fine Arts Center- Stage Rigging Equipment
- PE Complex Replacement piping and Support
- Odum Library Skylight Curb Evaluation
- Pine Hall Renovations
- Martin Hall-Stem Center Renovation
- New Psychology Building

Abraham Baldwin Agricultural College, Tifton, Georgia

- Conger Hall Structural Evaluation and Repairs
- New Nursing Education Building
- Tift, Lewis, & Herring Hall Renovations
- New Lab Science Building
- Thrash Hall Renovations
- King Hall Renovations
- Branch Hall Exterior Repairs

Georgia Southern University, Statesboro, Georgia

- Builders Memorial Monument

Medical College of Georgia, Augusta, Georgia

- Research Laboratory Building
- Children's Medical Center
- Sports Medicine Center

Georgia Southwestern State University, Americus, Georgia

- Sanford Hall – Elevator Connector
- Colum I Hall Renovation and Adaptive Re-use

University of Georgia, Tifton and Athens, Georgia

- Renovations and Additions to School Veterinary Medicine Building, Athens Campus
- Renovations to Historic Old Creamery Building, Athens Campus
- New Auditorium and Conference Center Additions Tifton, RDC
- Historic Animal & Dairy Science Building Restoration, Tifton

Moultrie Tech, Tifton Georgia Campus

- New Allied Health, Business and Conference Center Buildings
- New IST Building

Altamaha Tech Multiple Campuses

- Library Addition at Baxley Campus
- New Vehicle Maintenance Shelter, Baxley Campus
- Renovations to Alma Center
- New EMT Training Center, Augusta Campus
- Renovations to Cook Center, Hazlehurst Campus
- New Columbia County Campus
- New Glynn County Campus & Classroom Building, Brunswick, Ga.

Augusta State University, Augusta, Georgia

- Washington Hall Renovation

Middle Georgia Technical College, Warner Robins, Georgia

- New Lab & Classroom Building

South Georgia College, Douglas, Georgia

- Historic Davis Hall Renovation

HEALTH CARE

South Georgia Medical Center, Valdosta, Georgia

- Convenient Care – Additions & Renovations
- Doctors Office Building – Structural Evaluation & Recommendations
- Operating Room No. 2 Equipment Support – Structural Assistance
- Renovations to First Floor Labor & Delivery – Administration
- New Outpatient MRI Facility
- New Emergency Department / Expansion
- New Ambulatory Surgery Center
- New Medical Office Building
- Renovation & Addition to Outpatient MRI Facility
- Lakeland Villa 62 Bed Facility
- New Cafe for SMGC Lanier Campus

Medical College of Georgia, Augusta, Georgia

- Research Laboratory Building
- Children's Medical Center
- Sports Medicine Center

VA Medical Center, Augusta, Georgia

- New Cath Lab
- New Spinal Cord Injury Unit
- Unit 6D renovation
- Renovation to Lab 801

University Hospital, Augusta, Georgia

- West Augusta Surgical Center
- South Augusta Medical Center
- North Augusta, SC Medical Center
- Professional Office Building No. 4
- Kentwood Nursing Home Addition
- Westwood Nursing Home

Glynn County Board of Commissioners, Brunswick, Georgia

- New Glynn County Health Department
- Colquitt Regional Med, New PT/OTT Facility

Tift County Board of Commissioners, Tifton, Georgia

- New Tift County EMS
- Renovations to Pickett Building

Miller County Hospital, Camilla, Georgia

- Emergency Department Addition
- New Medical Office Building
- CT Building Renovation/Addition

Georgia Regional Hospital Atlanta, Atlanta, Georgia

- 40 Bed Secure Forensic Unit
- New Gymnasium

Central State Hospital, Milledgeville, Georgia

- New Treatment Mall
- 30 Bed Intensive Care Unit

MUNICIPAL – LOCAL GOVERNMENT PROJECTS

Augusta – Richmond County

- New Fire Station No. 1, No. 6, No. 7, No. 8, No 12, No. 13, No. 15 & No. 19
- New Marshals Office
- New FBO at Augusta Aviation
- New Fire Department Admin. Bldg.

City of Valdosta

- New Fire Station, East Park Ave.
- New Fire Station, Enterprise Drive
- New Fire Station Headquarters, Savannah Avenue
- Community Center Renovation & Addition, Gornito Road
- New Fry Street Community Center
